ABSTRACT

Seventy-seven entries comprise this general bibliography on recreation and open space. The bulk of the documents are studies and reports of land use, recreation finance, and recreation legislation throughout the United States. The listings are current, providing the latest information from 1973 through 1975. The citations are alphabetized by author and include the title, date, number of pages, and availability. An author and title index and a list of some publishers' addresses conclude the document. (JR)
